HOW TO CREATE NEXT FINANCIAL YEAR IN THE SOFTWARE

STEP – 1 – Go to Utilities → Transfer To Next Year

STEP – 2 – The following window will appear

COMPANY CODE → This is the company code for the next year's company.

Transfer Account Balance → (No/Yes) → If you want to make closing account balance as opening account balance in the next year then select YES, otherwise mark it as NO.

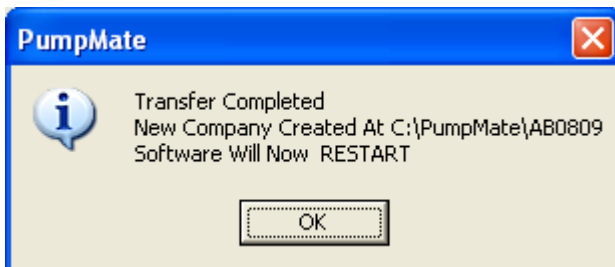

Transfer Item Balance → (No/Yes) → If you want to transfer the closing stock as opening in next year then select YES, otherwise mark it as NO.

Create → [Next Financial Year] → For creating next financial year this will be same. Don't change this.

Make → Press this button and select <Yes> to create next financial year.

After this if the next year is created successfully the following message will appear. This shows that the process is done successfully.

And after this please restart the software and enjoy working in the next year. And your start up screen will show two companies
